III.	SUM	MARY OF PROPOSED AMENDMENTS TO TABLE OF ALLOTMENTS	11

#### **SUMMARY**

By this Petition for Rule Making ("Petition"), Cox Radio, Inc. ("Cox") proposes to amend the FM Table of Allotments to provide first local service to a community. Cox proposes to reallot Channel 244A from Stamford, Connecticut, to Port Chester, New York, for use by WKHL(FM) as Port Chester's first local service. The proposal would provide first local service to the community of Port Chester and maintain local service in Stamford. Adoption of Cox's proposal would achieve a preferential arrangement of allotments under the Commission's allotment priorities. Accordingly, Cox respectfully requests that the Commission institute a rulemaking to amend Section 73.202(b), the FM Table of Allotments, as proposed herein.

# PETITION FOR RULE MAKING OF COX RADIO, INC.

Cox Radio, Inc. ("Cox"), by its attorneys and pursuant to Section 1.420(i) of the Commission's Rules, hereby respectfully submits this Petition for Rule Making ("Petition") requesting that the Commission institute a rulemaking to amend Section 73.202(b), the FM Table of Allotments, as proposed herein. By this Petition, Cox proposes to reallot Channel 244A from Stamford, Connecticut, to Port Chester, New York, for use by WKHL(FM) as Port Chester's first local service. Grant of the Petition would provide first local service to the community of Port Chester while maintaining local service in Stamford. As demonstrated herein, the proposed reallotment would achieve a preferential arrangement of allotments under the Commission's allotment priorities and would further the public interest.<sup>3</sup>

<sup>&</sup>lt;sup>1</sup> 47 C.F.R. § 1.420(i).

<sup>&</sup>lt;sup>2</sup> Cox Radio, Inc. is the licensee of WKHL(FM), Stamford, Connecticut.

<sup>&</sup>lt;sup>3</sup> See Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License, Report and Order, 4 FCC Rcd 4870, ¶ 25 (1989) ("Community of License R&O"), recon. granted in part, 5 FCC Rcd 7094 (1990);

## I. PROPOSED REALLOTMENT OF CHANNEL 244A TO PORT CHESTER, NEW YORK.

The Petition proposes the reallotment of Channel 244A from Stamford, Connecticut, to Port Chester, New York for use by WKHL(FM) (the "Port Chester Proposal"). The Port Chester Proposal squarely meets the Commission's criteria for grant of a proposed amendment to the FM Table of Allotments. In *Modification of FM and TV Authorizations to Specify a New Community of License*, the Commission stated that it would approve petitions for rule making requesting a change in a station's community of license without affording other interested parties an opportunity to file competing expressions of interest if (i) the proposed channel is mutually exclusive with the existing channel and (ii) the proposed allotment plan would result in a preferential arrangement of allotments under the Commission's allotment priorities. To determine whether a proposal would result in a preferential arrangement of allotments, the Commission compares the proposed allotment plan and the existing state of allotments for the communities involved based on the FM allotment priorities.

As detailed below, the Port Chester Proposal satisfies the Commission's requirements.

The proposed allotment of Channel 244A at Port Chester is mutually exclusive with

WKHL(FM)'s present assignment of Channel 244A at Stamford, Connecticut.<sup>5</sup> The grant of the

<sup>...</sup>continued

Revision of FM Assignment Policies and Procedures, Second Report and Order, 90 FCC 2d 88, ¶ 7 (1982). These priorities are (1) first full-time aural service; (2) second full-time aural service; (3) first local service; and (4) other public interest matters. The second and third priorities are given equal weight by the Commission.

<sup>&</sup>lt;sup>4</sup> Community of License R&O, 4 FCC Rcd 4870, ¶ 25 ("[W]e will compare the proposed allotment plan to the existing state of allotments for the communities involved. If adoption of the proposed allotment plan would result in a net service benefit for the communities involved (that is, if the plan would result in a preferential arrangement of allotments), we will adopt the proposal."). See also 47 C.F.R. § 1.420(i).

<sup>&</sup>lt;sup>5</sup> See Exhibit A (Technical Exhibit by du Treil, Lundin & Rackley, Inc. ("Technical Exhibit")).

Petition would provide Port Chester with its first local aural service and maintain local service to Stamford, thereby achieving a preferential arrangement of allotments. Upon the Commission's grant of the proposal, Cox will timely file an application to operate WKHL(FM) on Channel 244A at Port Chester.

### A. Technical Compliance.

The Port Chester Proposal complies with the Commission's technical requirements.<sup>6</sup> The channel substitution will be made at the existing transmitter site location for WKHL(FM) and, as a result, no gain or loss areas will be created.<sup>7</sup> The Channel 244A Port Chester service area will maintain service to 1,153,000 persons over an area of 2,460 square kilometers (land and water).<sup>8</sup> Operation from the proposed site would provide the requisite city grade coverage to Port Chester.<sup>9</sup>

WKHL(FM) is a pre-1964 grandfathered, short-spaced Class A station under Section 73.213.<sup>10</sup> The Commission has allowed pre-1964 grandfathered, short-spaced stations to change their communities of license when no change is made to their transmitter sites or technical facilities because no new short-spacings were created, no existing short-spacings were exacerbated, and the potential for interference between the currently short-spaced stations was

DCLIB02:1432804-4

<sup>&</sup>lt;sup>6</sup> See id.

<sup>&</sup>lt;sup>7</sup> See id.

<sup>&</sup>lt;sup>8</sup> See id.

<sup>&</sup>lt;sup>9</sup> See id. As shown on Figure 1, Sheet 2 of 2 of the Technical Exhibit, the Channel 244 facilities at the current site would encompasses Port Chester with the requisite 70 dBu contour both under an analysis of the predicted 16.2 kilometer Class A contour and the station's actual 70 dBu coverage contour.

<sup>&</sup>lt;sup>10</sup> See id. WKHL(FM) is short-spaced to radio stations WQXR-FM, New York, New York; WTIC-FM, Hartford, Connecticut; WQHT(FM), New York, New York; and WTSX(FM), Port Jervis, New York under Section 73.213. See 47 C.F.R. § 73.213; Technical Exhibit.

not increased.<sup>11</sup> Under this Commission precedent, WKHL(FM) can, therefore, change its community of license to Port Chester, New York without losing its grandfathered status.

WKHL(FM) also would be short-spaced to radio station WHBE(FM), East Hampton,
New York. However, because WKHL(FM) did not initiate the short-spacing, the proposed
Port Chester allotment should be considered fully-spaced for allotment purposes. The East
Hampton station requested authorization from the Commission to be short-spaced to Channel
244A pursuant to Section 73.215 of the Commission's Rules, and the Commission has held that
such short-spacings would not preclude consideration of the proposed allotment as fully
spaced. If

No aural services are assigned to Port Chester, <sup>15</sup> and accordingly, grant of Cox's Petition would provide Port Chester with its first local aural service and Stamford would remain served by WSTC(AM) and non-commercial station WEDW-FM, both of which are licensed to Stamford. <sup>16</sup>

### B. Port Chester Is an Independent Community for Allotment Purposes.

Port Chester qualifies as a community for allotment purposes and merits a first local aural service preference. The Commission defines communities as "geographically identifiable

<sup>&</sup>lt;sup>11</sup> See, e.g., Worcester and Westborough, Massachusetts, 18 FCC Rcd 23750 (2003); Kankakee and Park Forest, Illinois, 16 FCC Rcd 6768 (2001); Oceanside and Encinitas, California, 14 FCC Rcd 15302 (1999); Newnan and Peachtree City, Georgia, 7 FCC Rcd 6307 (1992).

<sup>&</sup>lt;sup>12</sup> See Technical Exhibit.

<sup>&</sup>lt;sup>13</sup> See Kankakee and Park Forest, Illinois, 16 FCC Rcd 6768, ¶ 2 (2001) (stating that stations may "change their community of license where other stations had relocated their transmitters closer in to the station under Section 73.215" and the "pre-existing short-spacings do not preclude grant" of the proposal).

<sup>&</sup>lt;sup>14</sup> Id.

<sup>&</sup>lt;sup>15</sup> See Technical Exhibit.

<sup>&</sup>lt;sup>16</sup> See id.

population groupings"<sup>17</sup> and considers whether the social, economic, and cultural organizations located in the community identify themselves with the community.<sup>18</sup>

Generally, if a community is located within an urbanized area or the proposed reallotment would cover 50% or more of an urbanized area with a 70 dBu signal, the Commission will conduct the Huntington and Faye and Richard Tuck analysis ("Huntington/Tuck analysis") to determine whether the proposed community of license is independent of the urbanized area and thus merits a first local service preference. 19 WKHL(FM) currently is licensed to Stamford. which is located mostly within the Bridgeport/Stamford Urbanized Area, and WKHL(FM)'s existing 70 dBu contour encompasses 340 square kilometers, or 28%, and 335,000 persons, or 38%, of the Bridgeport/Stamford Urbanized Area and population and 20 square kilometers, or 0.2%, and 14,200 persons, or 0.08%, of the New York/Newark Urbanized Area and population.<sup>20</sup> WKHL(FM) proposes to change its community of license from Stamford to Port Chester, which also is located within the Bridgeport/Stamford Urbanized Area.<sup>21</sup> However, because no change in the Channel 244A allotment reference point is proposed, WKHL(FM) will continue to cover 28% and 38% of the Bridgeport/Stamford Urbanized Area and population, respectively, and 0.2% and 0.08% of the New York/Newark Urbanized Area and population after it is reassigned to Port Chester.

DCLIB02:1432804-4

<sup>&</sup>lt;sup>17</sup> Strattanville and Farmington Township, Pennsylvania, 15 FCC Rcd 23848, ¶ 5 (2000).

<sup>&</sup>lt;sup>18</sup> See, e.g., id.; Dillsboro and Rosman, North Carolina, 15 FCC Rcd 25562 (2000).

<sup>&</sup>lt;sup>19</sup> See Headland, Alabama and Chattahoochee, Florida, 10 FCC Rcd 10352 (1995); Faye and Richard Tuck, 3 FCC Rcd 5374 at ¶¶ 1-4 (1988); Huntington Broadcasting Co. v. FCC, 192 F.2d 33 (D.C. Cir. 1951).

<sup>&</sup>lt;sup>20</sup> See Technical Exhibit.

<sup>&</sup>lt;sup>21</sup> See id.

As stated above, the Commission generally will conduct a *Huntington/Tuck* analysis when a proposed community is located within an urbanized area. The Commission does not require a *Huntington/Tuck* analysis, however, where the proponent proposes to move from one community within an urbanized area to another community within the same urbanized area.<sup>22</sup> In particular, the Commission has not required a *Huntington/Tuck* analysis when a proponent proposed to move from one community partially within an urbanized area to another community partially within the same urbanized area.<sup>23</sup> As noted, WKHL(FM) proposes to change its community of license from Stamford, which is mostly within the Bridgeport/Stamford Urbanized Area, to Port Chester, which also is located within the same urbanized area. Thus, "the station is not 'moving into' an urbanized area, but is already serving the area,"<sup>24</sup> and therefore a *Huntington/Tuck* analysis is not required. In addition, because the reallotment involves no transmitter site change and WKHL(FM) will be providing the same amount of coverage to the Bridgeport/Stamford and New York/Newark Urbanized Areas, the Commission does not require a *Huntington/Tuck* analysis because the proposal does not constitute a migration to an urbanized area warranting application of that analysis.<sup>25</sup>

<sup>&</sup>lt;sup>22</sup> See, e.g., Worcester and Westborough, Massachusetts, 18 FCC Rcd 23750, ¶ 3 (2003); Auburn, Northport, Tuscaloosa, Camp Hill, Gardendale, Homewood, Birmingham, Dadeville, Orrville, Goodwater, Pine Level, Jemison, and Thomaston, Alabama, 18 FCC Rcd 10333, ¶¶ 33, 34 (2003); Greeley and Broomfield, Colorado, 15 FCC Rcd 9519, ¶ 2 (2000); Moncks Corner, Kiawah Island, and Sampit, South Carolina, 15 FCC Rcd 8973, ¶ 17 (2000); Boulder and Lafayette, Colorado, 11 FCC Rcd 3632 (1996); East Los Angeles, et al., California, 10 FCC Rcd 2864 (1995).

<sup>&</sup>lt;sup>23</sup> See Joliet and Lemont, Illinois, 19 FCC Rcd 3465, ¶ 5 (2004) (finding *Tuck* analysis not necessary when current and proposed communities are partially located within the same urbanized area and the 70 dBu signal would continue to encompass 9.5% of that urbanized area).

<sup>&</sup>lt;sup>24</sup> Shelby and Dutton, Montana, 14 FCC Rcd 9514 (1999).

<sup>&</sup>lt;sup>25</sup> See Corinth, Scotia and Hudson Falls, New York, 16 FCC Rcd 13305, ¶ 7 (2001).

Port Chester, New York qualifies as a community and merits a first local aural service preference. Port Chester is an incorporated village, <sup>26</sup> listed in the U.S. Census, <sup>27</sup> and thus meets the basic criteria for a community. <sup>28</sup> Moreover, Port Chester's local government and businesses identify themselves with the community of Port Chester and thereby create a cohesive network for the residents of the village. <sup>29</sup>

Port Chester is an incorporated village<sup>30</sup> with a population of 27,867 persons according to the 2000 U.S. Census<sup>31</sup> and occupies an area of 610 square kilometers.<sup>32</sup> Port Chester has its own local government, which is headed by Mayor Gerald Logan and a seven-member board of trustees (including Mayor Logan).<sup>33</sup> The local government includes a Village Manager, the Village Clerk's office, and numerous departments, such as the Department of Finance,

Lighting Ceremony.<sup>51</sup> In addition, Port Chester has a local chamber of commerce office,<sup>52</sup> top-rated restaurants in its Restaurant Row,<sup>53</sup> and a variety of businesses, a number of which identify themselves with the name of the village, such as the Bagel Emporium of Port Chester, Port Chester Auto Body, Port Chester Florist, and Port Chester Heating and Cooling.<sup>54</sup>

In light of the strong indicia of a nexus between the community and its political, social and commercial organizations, the village of Port Chester clearly merits community status for FCC allotment purposes. A grant of the proposal would provide first local aural service to the residents of Port Chester while maintaining local service at Stamford and thus achieve a preferential arrangement of allotments.

#### II. CONCLUSION

The Petition presents a proposal that would achieve a preferential arrangement of allotments as compared with the current allotment scheme. The Commission has stated, "If adoption of the proposed allotment plan would result in a net service benefit for the communities involved (that is, if the plan would result in a preferential arrangement of allotments), we will adopt the proposal."<sup>55</sup>

<sup>&</sup>lt;sup>55</sup> Community of License R&O, 4 FCC Rcd 4870, ¶ 25.

Grant of the Petition would provide Port Chester with a first local service and maintain local service at Stamford. In contrast, the existing set of allotments does not provide a local service to Port Chester. Grant of the Petition would result in a "net gain" of first local service to one community without loss of local service to any other community involved. Accordingly, examination of the Petition according to the FM allotment priorities and resulting public interest benefits clearly weighs in favor of granting the Petition.

### III. SUMMARY OF PROPOSED AMENDMENTS TO TABLE OF ALLOTMENTS

In light of the foregoing, the Commission should issue a *Notice of Proposed Rule Making* proposing to implement the following amendments to the FM Table of Allotments:

Community	<u>Present</u>	Proposed		
Stamford, CT	244A			
Port Chester, NY		244A		

Respectfully submitted,

### EXHIBIT A

Technical Exhibit of duTreil, Lundin & Rackley, P.C.

## TECHNICAL EXHIBIT PETITION FOR RULE MAKING

#### Technical Narrative

This Technical Exhibit, of which this Narrative is part, proposes an FM Rule Making to modify the Commission's Table of Allotments contained within Section 73.202 within the Commission's Rules.

All population data, unless otherwise noted, is based upon the 2000 Housing and Population Census. The determination of available reception services was based on the criteria set forth in footnote 1 of the Notice of Proposed Rule Making in MM Docket No. 96-219 (DA 96-1774; adopted October 25, 1996, released November 1, 1996). Urbanized area definitions are based upon the 2000 Census.

#### Summary of Rule Making Proposal

Below is a summary of the allocation changes requested in the Rule Making.

• Delete 244A at Stamford, Connecticut and allot Channel 244A at Port Chester, New York.

### Proposed Channel 244A Port Chester, New York

It is proposed to delete Channel 244A at Stamford, Connecticut and allot Channel 244A at Port Chester, New York. Stamford would continue to have transmission service from WEDW-FM on Channel 203A and WSTC(AM) on 1400 kilohertz. The Port Chester proposal is mutually exclusive with the current Stamford allotment.

No change in site reference coordinates is proposed. Therefore, no loss or gain areas are created. The Channel 244A Port Chester service area will maintain service to 1,153,000 persons over an area of 2,460 square kilometers (land and water). Operation from the site will encompass Port Chester with the requisite 70 dBu contour.

The reference site does not comply with the Commission's minimum distance separation requirements. noted on Sheet 1 of Figure 1, the five short-spacings, as defined by Section 73.207 of the Commission's Rules, are to (1) WQXR-FM on Channel 242B at New York, New York, (2) WTIC-FM on Channel 243B at Hartford, Connecticut, (3) WQHT(FM) on Channel 246B at New York, New York, (4) WTSX(FM) on Channel 244A at Port Jervis, New York and (5) WHBE(FM) on Channel 244A at East Hampton, New York. upon available information from the FCC public access files, the first three short-spacings appear to be classified under Section 73.213(a); WTSX(FM) appear to be classified under Section 73.213(c); and WHBE(FM) initiated a Section 73.215 short-spacing to Channel 244A at Stamford. Therefore, it appears that all the shortspacings are either classified under Section 73.213 of the Commission's Rules or were initiated by another station.

The existing 70 dBu contour of Channel 244A at Stamford, Connecticut encompasses 340 square kilometers, or 28%, and 335,000 persons, or 38%, of the Bridgeport/Stamford urbanized area and population. The existing 70 dBu contour of Channel 244A at Stamford, Connecticut encompasses 20 square kilometers, or 0.2%, and 14,200 persons, or 0.08%, of the New York/Newark urbanized area and population.

Since there is no change in the Channel 244A allotment reference point, Channel 244A at Stamford will continue to maintain the same encompassment of the New York/Newark and Bridgeport/Stamford urbanized areas. The village of Port Chester is located within the Bridgeport/Stamford urbanized area as is most of the city of Stamford.

Below are the Channel 244A Port Chester reference site geographic coordinates:

41° 02′ 49″ North Latitude 73° 31′ 36″ West Longitude

The village of Port Chester has a population of 27,867 persons.

#### PORT CHESTER HISTORY

Wandering tribes of Mohegan Indians were the earliest inhabitants of the area known today as Rye Town and the Village of Port Chester. The first white settlers were a group of enterprising young men and women who came from the English colony of Connecticut in 1660. After land purchases from the Indians, negotiated mostly by Peter Disbrow, they settled on the island of "Manussing," for which they had paid "eight cotes and seven shirts fifteen fathom of womone." Although the land was part of the territory claimed by the Dutch, the defiant colonists drew up a proclamation in 1662 declaring allegiance to Charles of England. Through further treaties with the Indians, their combined holdings soon comprised all of what is now the City of Rye, Town of Rye, Harrison, White Plains and parts of Greenwich, North Castle and Mamaroneck. In 1665 the General Court of Connecticut merged the settlement under the name of Rye, in honor of a prominent family among the early colonists who has come from Rye, England.

For nearly one hundred years, Rye was disputed territory between New York and Connecticut, until finally, in 1788, the New York State legislature officially established the Town of Rye boundaries. The group of settlers moved outward from Manursing Island and eventually developed Peningo Neck (the present business section of the City of Rye) and "Saw Pit" as Port Chester was commonly called then. Saw Pit (also know as Saw Pits and Saw Pit Landing)," was named for the saw-mill and boat building shop near the mouth of the Byram River where the community evolved. It was little more than a hamlet until near the Revolutionary War period. But with its good harbor and growing shipbuilding industry, the port became a natural outlet for farm produce from the surrounding countryside.

During the Revolutionary War, Saw Pit was an important military outpost. Both armies vied for possession of the port, and the village was nearly destroyed in the crossfire. In 1776, American General Israel Putnam used the Bush Homestead, in what is now John Lyon Park, as his headquarters. When the clamor of the Revolution settled, the area was rebuilt and its shipping and shipbuilding industries prospered. Before long it had become an important steamboat stop, the eastern "port of Westchester." The name Port Chester was adopted in 1837. On May 4, 1868, Port Chester was incorporated as a village with specified limits within the Town of Rye.

The decline in agriculture and shipping came during the latter half of the 19th century, with the establishment of major railroads. Gradually the community changed from a port and trading center to a manufacturing center. By 1950, Port Chester was among the leading factory towns in the Lower Hudson Vailey. Many well-known corporations had headquarters or production centers in the village, including Life Savers, Empire Brush Works, Arnold Bread, Fruit of the Loom and Russell Burdsall Nut & Bolt Co. On evenings and weekends, Port Chester's downtown hummed with vitality, as residents of

LIFESAVERS BUILDING, THI AND NOW (HISTORIC LANDMARK)

neighboring towns flocked to the village's stores and restaurants. During the 1970s, most of the factories began to move south or west. Like many other manufacturing communities in the Northeast, Port Chester struggled with a declining economic base. In 1984, Lifesavers shut down its North Main Street factory after 64 years, the last major manufacturer to leave the village.

Since then, Port Chester has revitalized itself with a growing retail and service economy. Port Chester's downtown Restaurant Row is renowned throughout the region, offering cuisine from around the world in dozens of top-rated establishments. "The Waterfront at Port Chester" retail center will bring several wellknown stores and a multiplex movie theater to the Byram River shore. Costco Shoppers Warehouse was the first store to open last summer. On the horizon are Bed, Bath & Beyond, Super Stop & Shop, Marshall's and several others. Port Chester's prodigious industrial growth during the first half of the 20th Century attracted large numbers of European immigrants, primarily from Italy, Germany, Poland and Ireland. Similarly, newcomers from Central and South America and the Caribbean have helped to fuel the village's recent revival. Latino-owned stores and restaurants have helped bring customers of all ethnic groups back to Main Street and Westchester Avenue.
